

AU-100 WIRELESS MICROPHONE SET

FEATURES

- ✓ Auburn AU-100 Wireless Microphone is made from aluminium alloy material, which is comfortable for hand and durable for using.
- ✓ Microphone could be set the frequency, channel, RF output frequency, audio input gain & mute level.
- ✓ Have Charging Dock for to charge the Microphone with Rechargeable Battery inside.
- ✓ Have True Diversity Antenna means can gain the signal from great distance & stable.

DETAIL SPECIFICATION

Model	AU-100
Receiving Channel	Dual Channel
Frequency Stability	$\pm 0.005\%$
Carrier Wave Frequency Band	UHF 512 - 588MHz
Modulation System	FM
Vibration Method	PLL Phase Locking System Synthesis
Receive Sensitivity	Drift Rate is 25KHz, input is 5dBuV, S/N > 60dB
Frequency Bandwidth	50MHz
Max Drift Rate	$\pm 45\text{KHz}$
S/N Ratio	> 105dB
T.H.D	< 0.7% @ 1 KHz
Frequency Response	50Hz - 18KHz $\pm 3\text{dB}$
Effective Operating Range	80m (Open Space)
Power Supply	DC 12V / 850mA
Size (mm)	410 x 44 x 210mm
Gross Weight	4,5kg

Optional
